Contents of Vol. 61

Originals

- An Improved Method for Fluorometric Amino Acid Analysis Including Proline and Hydroxyproline
.....K. Yokotsuka and T. Kushida... (1)
- Stimulatory Effect of Ammonium on Streptomycin Formation by *Streptomyces griseus* Growing on a Glucose Minimal Medium
.....S. Inoue, Y. Nishizawa, and S. Nagai... (7)
- Efficiency of Utilization of Raw Materials in Conventional *Mirin*-Making
.....M. Uchida and S. Oka... (13)
- Induction and Characterization on Mutants Enhanced in Assimilability of *n*-Alkanes in Shake Cultures from a Strain of *Candida* sp.
.....T. Nakahara, H. Kawashima, T. Sugisawa, Y. Takamori, and T. Tabuchi... (19)
- Enhancement of Cellulose Degradation by *Ruminococcus albus* at High Cellulose Concentration
.....K. Ohmiya, K. Nokura, and S. Shimizu... (25)
- Cultural Conditions for Production of Neopurpuratin, a Purplish-Red Pigment, by Mixed Culture of *Streptomyces propurpuratus* with *Bacillus* sp.
.....M. Ohshima, N. Ishizaki, A. Handa, and Y. Tonooka... (31)
- Production of D- β -Hydroxycarboxylic Acids from the Corresponding Carboxylic Acids by a Mutant of *Candida rugosa*
.....J. Hasegawa, M. Ogura, H. Kanema, H. Kawaharada, and K. Watanabe... (37)
- Modeling of the Bioconversion Processing of Pristane to Pristanol by *Nocardia* sp.
.....H. Kuriyama and S. Fukuoka... (43)
- Optimal pH Profile in Rifamycin B Fermentation
.....J. G. Lee, C. Y. Choi, B. L. Seong, and M. H. Han... (49)
- Production of Tannase and Degradation of Chestnut Tannin by Bacteria
.....A. M. Deschamps, G. Otuk, and J.-M. Lebeault... (55)
- Nicotinamidenucleoside Amidase Activity, a Novel Deamidating Reaction in NAD Metabolism, in *Aspergillus Fungi*
.....M. Kuwahara, Y. Ishida, and M. Okatani... (61)
- Raw Starch Adsorption, Elution and Digestion Behaviour of Glucoamylase of *Rhizopus niveus*
.....B. C. Saha and S. Ueda... (67)
- Purification of α -Hydroxysteroid Dehydrogenase from *Lactobacillus xylosus*
.....S. Kinoshita, A. Nishimura, K. Kadota, H. Sawada, and H. Taguchi... (73)
- Properties of Crystalline Glutamine Synthetase from *Gluconobacter suboxydans* Grown on Glutamate as a Nitrogen Source
.....T. Tachiki, K. Tokoro, and T. Tochikura... (83)
- Isolation and Characterization of a Pentaerythritol Utilizing Bacterium
.....H. Obata, D. Akizuki, J. Tanishita, and T. Tokuyama... (121)
- Improvement of Yield by Application of some Commercial Enzyme Preparations in *Mirin*-Making
.....M. Uchida, H. Oyashiki, G. Nagahama, and S. Hanai... (127)
- NADH Production from NAD⁺ using a Formate Dehydrogenase System with Cells of a Methanol-Utilizing Bacterium
.....Y. Izumi, S. K. Mishra, B. S. Ghosh, Y. Tani, and H. Yamada... (135)

Extracellular Production of a Mannosylerythritol Lipid by a Mutant of <i>Candida</i> sp. from <i>n</i> -Alkanes and Triacylglycerols	H. Kawashima, T. Nakahara, M. Oogaki, and T. Tabuchi...	(143)
Hydrogen Production by Methylotrophs under Anaerobic Conditions	S. Kawamura, J. G. O'Neil, and J. F. Wilkinson...	(151)
Production of Molecular Hydrogen and Single Cell Protein by <i>Rhodospseudomonas</i> <i>capsulata</i> from Cow Dung	S. Vrati and J. Verma...	(157)
Enzymatic Preparation of Crystalline Glucose from Waste Cellulosic Materials	I. Kusakabe, T. Yasui, and T. Kobayashi...	(163)
Purification and Properties of Aminopeptidase from <i>Flavobacterium</i> sp.	S. Kinoshita, S. Nakamura, A. Takimoto, and H. Okada...	(171)
Purification and Some Properties of Glutamate Synthase from <i>Gluconobacter</i> <i>suboxydans</i> Growth on Glutamate as a Nitrogen Source	T. Tachiki, H.-C. Sung, S. Wakisaka, and T. Tochikura...	(179)
Role of Water in the Hydrolysis of Cellulose in Solid State	A. B. Kundu, B. S. Ghosh, B. L. Ghosh, and S. N. Ghose...	(185)
An Advanced Micro-Computer Coupled Control System in a Baker's Yeast Fed-Batch Culture using a Tubing Method	K. Dairaku, E. Izumoto, H. Morikawa, S. Shioya, and T. Takamatsu...	(189)
Isolation, Identification and Cultivation of Methanol-Utilizing Yeasts	T. Urakami, I. Terao, and I. Nagai...	(221)
Alkaline Shift Effect on the Uptake of Germanium by Algae, <i>Chlorella ellipsoideae</i> , <i>Oscillatoria</i> sp. and <i>Spirulina platensis</i>	M. Yanagimoto, H. Saitoh, and N. Kakimoto...	(233)
Oxygen Uptake Rate of Immobilized Growing <i>Candida lipolytica</i>	K. Sato and K. Toda...	(239)
An Improved Process of <i>Mirin</i> -Making using Supplemental Enzyme Preparations at a Limited Concentration of Alcohol	M. Uchida, H. Oyashiki, G. Nagahama, and S. Hanai...	(247)
Laboratory-Scale Production of 2,3-Butanediol Isomers (D(-), L(+), and Meso) by Bacterial Fermentations	S. Ui, H. Masuda, and H. Muraki...	(253)
Production of ATP from Adenine by <i>Brevibacterium ammoniagenes</i>	T. Fujio and A. Furuya...	(261)
Bulk Preparation of <i>R</i> -(+)-Nicotine from a Racemic Mixture by Continuous Culture with an Isolated <i>Pseudomonas putida</i>	A. Katsuyama, S. Maeda, Y. Mikami, S. Uchida, Y. Obi, and T. Kisaki...	(269)
Mass Production of Lipids by <i>Lipomyces starkeyi</i> in Microcomputer-Aided Fed-Batch Culture	H. Yamauchi, H. Mori, T. Kobayashi, and S. Shimizu...	(275)
Studies on the Adsorption of Cellulase on Lignocellulosics	S. C. Goel and K. B. Ramachandran...	(281)
New Parameters for Simulating Progress Curves of the Lipase Reaction	Y. Kosugi and H. Suzuki...	(287)
Liquid Mixing in Activated Sludge Aeration Tank	K. Fujie, T. Sekizawa, and H. Kubota...	(295)
New Control Strategies for Continuous Cultures Based upon a Microcomputer-Aided Nutristat	H. Mori, T. Yamané, T. Kobayashi, and S. Shimizu...	(305)
A New Methanol-Assimilating Thermotolerant Yeast with a High Cell Yield	J. J. Allais and J. Baratti...	(339)
Ribosomal Resistance to Streptomycin in Strains Regenerated from Protoplasts of a Streptomycin-Susceptible Mutant Derived from a Streptomycin Producer	M. Sugiyama, T. Katoh, H. Mochizuki, O. Nimi, and R. Nomi...	(347)

Inhibition of Glucose Catabolism by Aeration in <i>Leuconostoc mesenteroides</i>	S. Ito, T. Kobayashi, Y. Ohta, and Y. Akiyama...	(353)
Selective Production of 5-Keto-D-Gluconate by Gluconobacters	E. Shinagawa, K. Matsushita, O. Adachi, and M. Ameyama...	(359)
Effect of Phosphate Ion and Ammonia-Nitrogen on Colistin Production by <i>Bacillus polymyxa</i>	Y. Kuratsu, M. Sakurai, K. Inuzuka, and T. Suzuki...	(365)
Biotransformation of D-Arabitol to D-Xylulose by <i>Gluconobacter suboxydans</i>	Immobilized within κ -Carrageenan	S. Ohmomo, Y. Tozawa, and K. Ueda... (373)
Purification and Some Properties of a Cellulase Active on Crystalline Cellulose from <i>Cellulomonas uda</i>	K. Nakamura and K. Kitamura...	(379)
Purification and Properties of Two Endo-Type Cellulases from <i>Irpex lacteus</i> (<i>Polyporus tulipiferae</i>)	K. Kubo and K. Nisizawa...	(383)
Comparison of Cell Productivities among Fed-Batch, Repeated Fed-Batch and Continuous Cultures at High Cell Concentration	H. Mori, T. Yamané, T. Kobayashi, and S. Shimizu...	(391)
Oxygen Absorption Characteristics in a Square Aeration Column	H. Kataoka, T. Ohsawa, S. Sato, S. Mukataka, and J. Takahashi...	(403)
Isolation of a Formate-Utilizing Methanogenic Bacterium by a Chemostat Culture Technique	N. Nishio, S. Y. Eguchi, K. Ryuno, H. Kawashima, and S. Nagai...	(437)
Novel Actions of Inducer in Staphylomycin Production by <i>Streptomyces virginiae</i>	M. Yanagimoto...	(443)
Optimal Culture Conditions for Production of the Macromolecular Peptide Antibiotics AN-1, AN-3 and AN-7	S. Miyashiro and S. Uda...	(449)
Kinetic Analysis of the Growth of <i>Spirulina</i> sp. on Continuous Culture	M. Iehana...	(457)
Stereospecific and Electrophoretic Natures of Bacterial 2,3-Butanediol Dehydrogenases	S. Ui, H. Masuda, and H. Muraki...	(467)
(1 $\rightarrow$ 2)- β -D-Glucan-Hydrolyzing Enzymes in <i>Cytophaga arvensicola</i> : Partial Purification and Some Properties of Endo-(1 $\rightarrow$ 2)- β -D-Glucanase and β -D-Glucosidase Specific for (1 $\rightarrow$ 2)- and (1 $\rightarrow$ 3)-Linkages	N. S. Mendoza and A. Amemura...	(473)
Effect of Disk Diameter on the Foam-Breaking Capacity of a Mechanical Foam-Breaker with a Rotating Disk	A. Ohkawa, T. Yuzawa, and N. Sakai...	(483)
Oxygen Transfer in a Loop Reactor for Viscous Non-Newtonian Biosystems	K. Gschwend, A. Fiechter, and F. Widmer...	(491)
Regulation of a Blue Pigment Production by γ -Nonalactone in <i>Streptomyces</i> sp.	M. Yanagimoto and T. Enatsu...	(545)
Inhibition by Acetic and Propionic Acids of the Growth of <i>Propionibacterium shermanii</i>	A. Nanba, R. Nukada, and S. Nagai...	(551)
Mutual Conversion between H ₂ Plus CO ₂ and Formate by a Formate-Utilizing Methanogen	N. Nishio, S. Y. Eguchi, H. Kawashima, and S. Nagai...	(557)
Cellulolytic Activities of <i>Clostridium thermocellum</i> and Its Carbohydrate Metabolism	W. S. Park and D. D. Y. Ryu...	(563)
Chinese Rice Pudding Fermentation: Fungal Flora of Starter Cultures and Biochemical Changes during Fermentation	D.-L. Wei and S.-C. Jong...	(573)
Control of Broth Viscosity in Colistin Fermentation by <i>Bacillus polymyxa</i>	Y. Kuratsu and K. Inuzuka...	(581)
Pressurized Reaction Method for Continuous Production of L-Alanine by Immobilized <i>Pseudomonas dacunhae</i> Cells	M. Furui and K. Yamashita...	(587)

Production of Vitamin B ₁₂ by Living Bacterial Cells Immobilized in Calcium Alginate Gels	B. Yongsmith and K. Chutima...	(593)
Ethanol Production by Cell Recycling with Hollow Fibers	Y. Nishizawa, Y. Mitani, M. Tamai, and S. Nagai...	(599)
Ammonium Ion-Depressed Fermentation of Tylosin by the Use of a Natural Zeolite and Its Significance in the Study of Biosynthetic Regulation of the Antibiotic	R. Masuma, Y. Tanaka, and S. Omura...	(607)
Effects of Agitation on Enzymatic Hydrolysis of Cellulose in a Stirred-Tank Reactor	S. Mukataka, M. Tada, and J. Takahashi...	(615)
Growth Estimation of <i>Candida lipolytica</i> from Oxygen Uptake in a Solid State Culture with Forced Aeration	K. Sato, M. Nagatani, K. Nakamura, and S. Sato...	(623)

Notes

Trigger of Damage by Oxygen Deficiency to the Acid Production System during Submerged Acetic Fermentation with <i>Acetobacter aceti</i>	H. Muraoka, Y. Watabe, N. Ogasawara, and H. Takahashi...	(89)
Mechanism of Coenzyme A Biosynthesis by <i>Sarcina lutea</i>	N. Nishimura, T. Kakimoto, and I. Chibata...	(95)
Effect of pH on the Production of Acetone and Butanol by <i>Clostridium acetobutylicum</i> in a Minimum Medium	N. Nishio, H. Biebl, and M. Meiners...	(101)
Vitamin B ₁₂ Production from Soybean Curd Whey with <i>Propionibacterium freudenreichii</i>	B. Yongsmith and P. Apiraktivongse...	(105)
Purification and Characterization of Acid α -Amylase from <i>Paecilomyces</i> sp.	C. T. Zenin and Y. K. Park...	(109)
Enhancement of Cellulose Digestion by Mutants from an Anaerobe, <i>Ruminococcus albus</i>	M. Taya, K. Ohmiya, T. Kobayashi, and S. Shimizu...	(197)
Functional Selection of Low Sulfur Dioxide-Acceptor Producers among 30 <i>Saccharomyces cerevisiae</i> Strains	G. A. Farris, F. Fatichenti, P. Deiana, and G. Madau...	(201)
Isolation and Identification of UDP- <i>N</i> -Acetylglucosamine from Cells of <i>Saccharomyces rouxii</i>	M. Tomita...	(205)
Effect of Carbon Dioxide on Growth of Microorganisms in Fed-Batch Cultures	H. Mori, T. Kobayashi, and S. Shimizu...	(211)
Influence of Initial Yeast and Sugar Concentrations on the Quantity of Yeast Produced in Batch Ethanol Fermentation of Sugar-Cane Blackstrap Molasses	M. de F. V. de Queiroz, M. L. R. Vairo, and W. Borzani...	(215)
Growth Characteristics and Cell Partitioning of <i>Acinetobacter</i> on Hydrocarbon Substrates	R. J. Neufeld, J. E. Zajic, and D. F. Gerson...	(315)
Diffusional and Electrostatic Effects on the Kinetics of Immobilized Enzymes	A. Gupta and K. B. Ramachandran...	(323)
Conversion of Cane Bagasse to Compost and Its Chemical Characteristics	R. J. H. Castro Gómez, and Y. K. Park...	(329)
Support Materials for Downflow Stationary Fixed Film (DSFF) Methanogenic Reactors	G. H. Copp and K. J. Kennedy...	(333)
Protoplast Formation from Conidia of <i>Trichoderma reesei</i> by Cell Wall-Lytic Enzymes of a Strain of <i>Trichoderma viride</i>	H. Toyama, A. Shinmyo, and H. Okada...	(409)
Turbidity Formation Caused by Interaction of Must Proteins with Wine Tannins	K. Yokotsuka, K. Nozaki, and T. Kushida...	(413)
Production of Single Cell Protein from Vegetable Oils	D. Montet, R. Ratomahenina, A. Ba, M. Pina, J. Graille, and P. Galzy...	(417)

Cultural Conditions for Lytic Enzyme Production by <i>Streptomyces rutgersensis</i> K. Hayashi, T. Kasumi, N. Kubo, T. Sugimoto, and N. Tsumura...	(421)
Effect of Dilution Rate and Substrate Concentration on the Synthesis of Methanol Oxidizing Enzymes in the Yeast <i>Hansenula polymorpha</i> J. J. Allais, A. Louktibi, and J. Baratti...	(425)
Influence of the Aeration Rate on the Growth Yield in Suspension Cultures of <i>Catharanthus roseus</i> (L.) G. Don A. Pareilleux and R. Vinas...	(429)
Induction of β -N-Acetylglucosaminidase and Uptake of N-Acetylglucosamine by a <i>Streptomyces</i> sp. T. Iwamoto, T. Nakaya, M. Inaoka, and H. Naka...	(499)
Molecular Weight-Viscosity Relationships of Pendulan from <i>Porodisculus pendulus</i> Y. Iwamuro, M. Aoki, K. Mashiko, and Y. Mikami...	(505)
A Low-Cost Method for the Production of Extracellular Alkaline Proteinase using Tapioca Starch S. Chandrasekaran and S. C. Dhar...	(511)
Single Cell Protein Production from Cassava Starch by <i>Rhodospseudomonas gelatinosa</i> N. Noparatnaraporn, Y. Nishizawa, M. Hayashi, and S. Nagai...	(515)
Methane Fermentation of Mangrove Viviparous Seeds G. Dhavises, S. Oi, T. Yamamoto, and J. Sugi...	(521)
Use of Yeast Cell Recycling for Rapid Ethanol Production from Molasses G. Verma, R. K. Sedha, and R. P. Gupta...	(527)
The Use of Free and Immobilized Cells of <i>Debaryomyces polymorphus</i> to Produce Ethanol from Jerusalem Artichoke Tubers A. Margaritis, P. Bajpai, and M. A. Lachance...	(533)
Effect of Liquid Disintegration Pattern from the Disk on the Performance of a Mechanical Foam-Breaker with a Rotating Disk A. Ohkawa, T. Yuzawa, and N. Sakai...	(539)
UV-Killed Protoplast Fusion as a Method for Breeding Killer Yeasts K. Ouchi, T. Nishiya, and H. Akiyama...	(631)
Aging Effect of Flor Formation by <i>Saccharomyces bailii</i> var. <i>bailii</i> on a Spanish-Type Sherry F. Fatichenti, G. A. Farris, and P. Deiana...	(637)
L-Malic Acid Fermentation by a Mixed Culture of <i>Rhizopus arrhizus</i> and <i>Paecilomyces varioti</i> S. Takao, A. Yokota, and M. Tanida...	(643)
Affinity Chromatography of <i>Candida</i> Pyruvate Kinase on Blue Dextran-Sepharose K. Kawai, K. Kumagai, A. Oshika, and H. Horitsu...	(647)
